

VIGOR

PCRBAR3852AV

New version 2024

- **Recessed cooktop** for better liquid retention
- **Crystal Glass Surface**, easy to clean and designed for a sleek, modern look.
- **Advanced Heating Elements** – Special infrared technology penetrates food, delivering superior cooking results with enhanced efficiency.
- **Rapid Heat-Up Times** – Reach optimal temperatures faster than ever.
- **Energy Efficient** – High efficiency allows for reduced power consumption.
- Optional **Patented Duplex System** – Enables cooking thicker cuts of meat and adds flexibility by transforming the grill into a cooking surface; use a pot or pan directly on the grill, maximizing versatility.
- **Sturdy Stainless Steel Frame** – Beautifully designed and built to last, featuring a robust 3mm-thick stainless steel frame.
- **Remote Touch Control Option** – The sleek touch control panel can be installed in multiple positions, either on the countertop next to the grill or on the front of the cabinetry. The crystal glass control surface not only adds aesthetic appeal but also minimizes space use. Once sealed to the cabinet with silicone, it's practically watertight.

Technical datas
220-240Vac 50/60 Hz

Max power 1,8 kW
Dimensions mm ~ 520 x 380
